PROFESSIONAL SUMMARY

Flutter Developer with 2+ years of experience building production-grade Android, iOS, and Web applications. Expertise in Clean Architecture, BLoC/Cubit, Firebase integrations, FinTech/BNPL solutions, and enterprise HR systems. Strong background in data structures and algorithms through competitive programming.

WORK EXPERIENCE

Flutter Developer

May 2025 – Present

Waseela Consumer Finance — Giza, Egypt

- Developing a production-grade FinTech/BNPL consumer app (Android & iOS) enabling installment-based purchases via a QR merchant network.
- Built authentication (OTP, biometrics), digital KYC (National ID OCR, face liveness, PDF contract signing), and QR-based purchase flow.
- Built credit/loan dashboard with Syncfusion charts; integrated Paymob, Geidea, and Etisalat Wallet payment gateways.
- Implemented security: root/jailbreak detection, developer mode detection, screenshot prevention; added FCM push notifications and Firebase Analytics.
- Tech: Clean Architecture, BLoC/Cubit, Dio+Retrofit, Freezed, Shorebird OTA, Firebase (Auth, Crashlytics, Analytics, Remote Config), Meta SDK.

Mobile Developer — Freelancer

Feb 2023 – Present

Self-employed

- Bab El-Ezz: Cross-platform workshop management system (Android & Windows) with job orders, invoicing, inventory, staff attendance, financial dashboards, and PDF export. Stack: Flutter, Firebase, BLoC, Syncfusion.
- Delivered multiple client apps using Flutter, Firebase, Riverpod, Google Maps, and REST APIs.

Mobile Developer Intern

Aug 2022 – Jan 2023

Instant Software Solutions — Egypt

- Built mobile applications using Flutter, including an AR-based learning application.

EDUCATION

Bachelor of Computer Science — Thebes Academy, Cairo, Egypt | GPA: 3.0/4.0

2019 – 2023

Graduation Project: Enlightened Eyes — Grade: Excellent (A)

KEY PROJECTS

Waseela Consumer App

2025 – Present

Flutter · BLoC · Clean Architecture · Firebase · Dio · Syncfusion

- Production FinTech/BNPL app with authentication, KYC pipeline, multi-gateway payments, credit management, security hardening, and localization (AR/EN).

Bab El-Ezz — Workshop Management System

Freelance

Flutter · Firebase · BLoC · Syncfusion · fl_chart

- Full-featured auto repair system (Android & Windows): invoicing, inventory, staff management, financial analytics, customer feedback, and PDF generation.

Digx — Digitalization Management System

Flutter 3 · Firebase · BLoC · GoRouter · GetIt · Syncfusion

- Cross-platform app (Android, iOS, Web) with role-based access, drag-and-drop Kanban, real-time dashboards, force update, and Excel reporting.

HR Management System — Cross-Platform Flutter App

Waseela Consumer Finance

Flutter · Firebase (Auth, Firestore, Storage) · BLoC/Cubit · Clean Architecture · GetIt · GoRouter · Syncfusion

- Production-grade, cross-platform HR portal (Web, Android, iOS) serving Employee, Manager, and HR Admin personas with role-based access and conditional navigation.
- 16 independent feature modules including leave management (calendar-aware balance validation), manager approval workflows, attendance with leave-merge logic, employee CRUD with full career history, and self-service HR requests (loans, letters, payslips).
- Dual Firebase storage strategy (nested per-employee documents + global indexed collections); PDF viewer via Syncfusion + pdf.js; isolated admin dashboard as a separate Flutter entry point sharing the same DI container.

Shibrawi — Food Ordering Application

Freelance

Flutter · Riverpod · Feature-First Architecture · Dio · Google Maps · Slang

- Cross-platform food ordering app with Feature-First Architecture and Riverpod for state management across Authentication, Menus, Cart, Search, and User Profile modules.
- Integrated Dio with custom interceptors for REST API communication; Google Maps for location tracking and delivery management; Lottie animations and Shimmer loading skeletons for a polished UI.
- Delivered full multi-language support (AR/EN) using Slang (type-safe I18n) and dynamic permission handling for location services.

Yal Spa — Service & E-Commerce Application

Freelance

Flutter · Riverpod · Clean Architecture · Dio · AutoRoute · Slang

- Scalable spa/e-commerce app built with Feature-Driven Architecture across 10+ modules; Riverpod for reactive state management; AutoRoute for deep linking and complex navigation flows.
- Integrated Dio with custom interceptors for REST API communication; core modules include Auth, Location & Maps, Shopping Cart, Favorites, Offers, and Notifications.
- Premium UI/UX with Lottie animations, Shimmer loading effects, and full AR/EN localization using Slang with custom Almarai font support.

Enlightened Eyes — Graduation Project

2023

Flutter · Agora · Firebase

- Assists visually impaired users by connecting them with volunteers via live video for real-time navigation guidance. Grade: Excellent (A).

TECHNICAL SKILLS

Mobile: Flutter, Dart, BLoC, Cubit, Riverpod, Provider, Firebase, Clean Architecture, MVVM, Google Maps

Networking & Payments: Dio, Retrofit, REST APIs; Paymob, Geidea, Etisalat Wallet

Code Generation: Freezed, json_serializable, flutter_gen, build_runner

CI/CD & Analytics: Shorebird OTA, Firebase Crashlytics, Remote Config, Analytics, Meta SDK

Data Visualization: Syncfusion Charts & XlsIO, fl_chart

Programming: C/C++, Java, Data Structures, Algorithms, OOP, OOD, Dependency Injection, Design Patterns

Tools: Android Studio, VS Code, Git/GitHub, Jira, Postman, Figma, Adobe XD

Key Packages: GoRouter, GetIt, Easy Localization, Slang, Agora, Socket.IO, FCM, pdf, flutter_screenutil

LANGUAGES & CERTIFICATIONS

Languages: Arabic (Native) | English (Very Good)

- Problem Solving Training Levels 1 & 2 — Club of Technology / Coach Academy
- Complete Flutter & Advanced Flutter Courses | Full Flutter & Dart Development Course (Udemy)
- Networking Practical Course (CCNA) | ECPC Egypt Collegiate Programming Championship (2022)
